

K-Love is my all time favorite radio station on FM. It's the only station i listen to anymore.
The music makes me happy, makes me feel good and I am a nicer and kinder person for it. I listen it to when I drive, because it keeps me calm. It help with road rage. Even non-christians in the community listen to it. I plead with you, keep this incredible, up-lifting and witnessing tool station on the air. we need it desperately. It gives hope and spreads light around our country in a time when there is so much unsincerity, turbulence and confusion going on. Keep this 'Beacon of Light' (K-LOVE) on the air. Don't take it away from me.
